

Posters at Nordic One Health conference Friibergh, March 19th-20th 2014

Joanne Chapman	Linnaeus University	In Defence of Defensins: Characterising Innate Immunity in Wild Mallards
Pia Fällgren	National Veterinary Institute	Rapid Detection of Antibiotic Resistance Genes Using Luminex Multiplex Technology
Ingrid Hansson	National Veterinary Institute	Antimicrobial resistance of <i>Campylobacter</i> isolates from chicken products of different origin
Tove Hoflund & Frida Wennerholm	Uppsala University	Lessons from the Dhaka hospital, Bangladesh
Mia Holmberg	National Veterinary Institute	Prevalence of <i>Campylobacter</i> species in fecal samples from Swedish dogs
Jenny Isaksson	Uppsala University	Chlamydia bacteria in sea birds on the Antarctic continent?
Tomas Jinnerot	National Veterinary Institute	PCR prevalence of EHEC-associated serotypes and virulence factors in Swedish cattle at slaughter
Tobias Lilja	National Veterinary Institute	Identification of mosquito vectors through DNA metabarcoding
Björn Olsen	Uppsala University	Characterization of <i>Campylobacter</i> spp isolated from birds in Antarctica and sub-Antarctica
Gert Olsson	Swedish University of Agricultural Sciences	Echinococcus Multilocularis: First Finding in an Intermediate Host in Sweden
Robert Söderlund	National Veterinary Institute	Stable insertional inactivation of verotoxin 2 by IS629-elements in VTEC O157:H7- a win-win situation for the zoonotic pathogen and the human population?
Katarina Wallmenius	Uppsala University	<i>Rickettsia helvetica</i> infection in 10% of Swedish ticks and a first detection of <i>Rickettsia sibirica</i> in Sweden
Michelle Wille	Linnaeus University	Wild birds, influenza A viruses
Alia Yacoub	National Veterinary Institute	Broad Molecular Detection of Flaviviruses
