

# Invitation

Kick-off for Uppsala Antibiotic Center Seminar series

February 2, 13.00-16.00, Trippelrummet (E10:1309), Navet, BMC

*Uppsala Antibiotic Center will host a seminar series with inspiring internal and invited lecturers. The seminar series kicks off with a half-day event on February 2, with presentations from scientists connected to Uppsala Antibiotic Center. The seminar is followed by a mingle session with refreshments. We hope that you will join us!*

## Programme:

13:00-13:15 Welcome note by Anna Zorzet, UAC management team

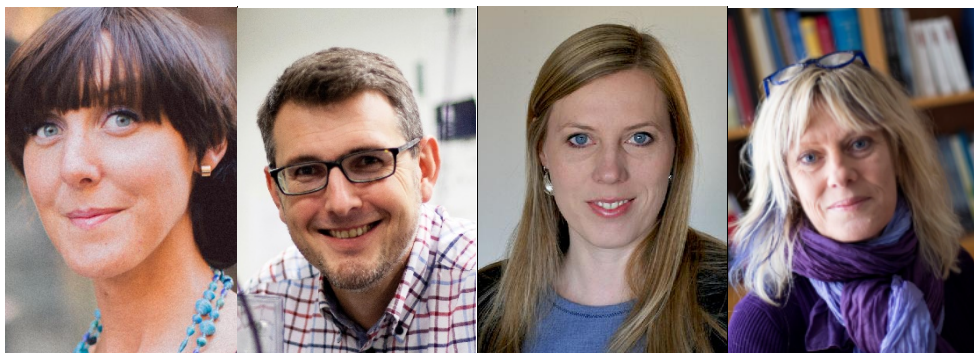

13:15-13:35 "Targeted eradication of bacterial pathogens", Sanna Koskiniemi, Dept. of Cell and Molecular Biology.

13:35-13:55 "Improving the use of antibiotics in the management of acute childhood illness, a study from Ujjain, India", Anna Bergström, Dept. of Women's and Children's Health.

13:55-14:15 "How is cell-to-cell variation in growth rate related to antibiotic tolerance and resistance development?", Johan Elf, Dept. of Cell and Molecular Biology.

14:15-14:35 "The innovation paradox: Highly needed university antibacterial research in a dwindling antibiotic eco system", Alexandra Waluszewski, Dept. of Economic History.

14:35 – Mingle session with refreshments.
